

**Yellow Sea Rim Workshop on Explosion, Combustion and other Energetic Phenomena
for Various Environmental Issues, 2012**

- as a meeting of Kumamoto University Liaison office at KAIST-

August 2-3, 2012

Kumamoto University, Kumamoto, Japan

Co-chaired by

K. Hokamoto, Kumamoto University

S. Itoh, Okinawa National College of Technology

H.D. Shin, KAIST, Korea

S. Torii, Kumamoto University

Invited speakers (tentatively)

Joongmyeon Bae, KAIST, Korea

P.W Chen, Beijing Institute of Technology, P.R. China

Z. Liu, Beijing Institute of Technology, P.R. China

M.Katayama, CTC & Kumamoto University, Japan

The workshop has been continued for several years to activate academic exchanges between KAIST and Kumamoto University in the related field of explosion, combustion and other energetic phenomena for various environmental issues. The workshop will include some invited and contributed talks as well as poster presentations especially by young researchers. Young scientist award is being considered for encouraging such participants. We hope to have good contribution for the workshop. This meeting is scheduled as an event for the retirement of Professor H.D. Shin, KAIST who strongly contributed the exchanges between two universities.

Abstract due date is the July 13, 2012. Contributors are requested to submit 1-4 pages abstract (A4 size, single column, word or pdf file less than 2MB) to the corresponding e-mail address. Please write in your e-mail the type of presentation (oral or poster) you prefer.
